

Do you know if your teen is driving safely?

In Collaboration with Nu-Turn Driving, LLC and In partnership with Xemplar Drive, we're pleased to announce the launch of our:

Remote Teen Driving Analysis Program

We envision a world where continual education and training is commonplace, and driving is no longer the leading cause of death for teenagers.

Research by The National Institute of Health shows that during the first 3 months of licensure, teens are:

- 8 times more likely to be involved in a crash
- 4 times more likely to engage in risky behavior such as rapid acceleration, sudden braking and aggressive turns

A four month remote private Coaching service that enables us to assess the Risk level of your teens driving habits, behaviors, and skills while also providing coaching to help them measurably improve their driving and reduce their risks for citations and crashes.

The Remote Teen Driving Analysis Program provides parents with:

- Four full months of mobile app monitoring on all your teen's driving activities
- Weekly reviews of the driving data collected
- One to two monthly review and Coaching sessions (via Zoom) with you and your teen to discuss the data and provide effective ways for improving their driving habits and behaviors
- Coaching to provide instructional tools to improve supervised driving (permit logging) lessons
- Coaching to assist your teen measurably improve their driving habits and skills

This Mobile App service will alert us to:

- Distracted Driving-detect phone use while driving
- Aggressive Starts to Hard Braking Events
- Speeding Violations
- Aggressive Cornering or Lane Change Maneuvers

Our professional analysis of actual driving events and behaviors enables us to create solutions that will benefit your teen driving by:

- Increasing their awareness behind the wheel
- Improving their scanning and vision skills
- Increasing their following distances
- Potentially reducing their risk for loss of control and roll-over incidents
- Reducing their risk for traffic citations and insurance cost increases
- Ultimately keep them safer behind the wheel

Cost: \$95.00
